SPILL KIT STICKER AND INSTRUCTIONS	1

## SPILL ABSORPTION PROCEDURE

- 1 Assess the Spill:** Identify the liquid before applying absorbent. Consult the product's MSDS to ensure proper safety measures and appropriate PPE are used.
- 2 Contain the Spill:** Use absorbent material or a containment sock to prevent spread.
- 3 Apply Absorbent:** Cover the entire spill with absorbent. Add more if needed until the mixture appears dry.
- 4 Sweep the Area:** Use a stiff broom to thoroughly sweep the absorbent over the spill area.
- 5 Reapply Absorbent:** If the mixture isn't dry or an oily film remains, add more absorbent.
- 6 Wipe Residue:** Use pads to clean any remaining areas or equipment.
- 7 Dispose Properly:** Dispose of waste according to local government regulations.
- 8 Report Incident:** Complete and file an incident report.
- 9 Restock Kit:** Replenish the spill kit with replacement items.
